Subject: 2017-05-25_SCS Technical Committee on M&S Body of Knowledge Index - Part 2 - Structure of Core Areas

Importance: High

Dear Members of the SCS Technical Committee on M&S Body of Knowledge Index (Tiger Team),

1. **For information:** Updates at the [website](#):
 - 1.1 Please check the notes at the first page:
*Please **share** your views with all members of the Tiger Team.
For any addition/correction, please [contact](#) Dr. Tuncer Ören.*
 - 1.2 **Status:**
**Part 1 is under scrutiny [2017-04-19 –
Part 2 – only highest level of its structure is under scrutiny [2017-05-25 –**
 - 1.3 Part 1, Section 1.1 - Recommendations by Members of the Technical Committee (an addition):
 - [2017-05-09](#) – L.G. Birta
 - 1.4 The general structure of Part 2 is revised. The details will be elaborated on after revision/agreement of the general structure.
 - 1.5 This message is also posted at the - [Messages](#) to the members of the Technical Committee.
 - 1.6 During May27 – June 22, I will be out of Canada. I may receive your messages, depending on the availability of Wi-Fi at hotels.
2. **For action:**
 - 2.1 Would you please revise the **structure of Part 2** of [M&S BOK](#) Core Areas and share your views with all of us?

(Current links from Part 2 are rather historic. After the update of the structure, I will update the links and the relevant pages.)

Since, this is an important step, could you please express your detailed views **by end of June?**

2.3 Still, it is not too late to express your views about **Part 1**. Constructive and specific views may enhance it.

Since Part 1 is under scrutiny since 2017-04-19, if I don't get any shared view, **by end of June**, I will assume that you endorse Part 1 and will close its update **by end of August 2017**.

2.4 [2017-05-09](#) – by L.G. Birta

(Please express your views on his view: agree/disagree/elaborate. Specific and detailed views may be very useful.)

To be practical, I suggest that views should be shared directly with all members of the Committee. As the chair of the Committee, I have strong views on some of the issues; however, I do not want to filter views of the members. When opportunity arises, I would gladly express my views.

2.5 You can still update the information posted at “The [members](#) of the Committee”. Please send me a message.

2.6 Please acknowledge receipt of this message.

Look forward progressing together,

Tuncer Ören
