

Modeling and Simulation Body of Knowledge (M&S BoK) - Index

updated and © by: Dr. [Tuncer Ören](#) - 2010-12-17

Terminology: Types of Experiments & Terms Related with Experiments

(over 100 terms)

(based on the [first version](#) of the Multi-lingual Modeling and Simulation Dictionary)

a priori experiment
acceptability of experimental frame
applicability of an experimental frame to a model
applicability of experimental frame
applicability of experimental frame to a model
applicable experimental frame
assessment of experimental condition
assessment of experimental conditions
assessment of experimental design
assessment of the applicability of an experimental frame to a model
capability engineering-based experimentation
computational experiment
computer-aided experiment
computer-aided experimentation
conventional experimentation
derivable experimental frame
design of experiment
design of simulation experiment
design of simulation experiments
designed experimentation
deterministic experiment
DEVS experimental frame realization
digital experiment
empirical experiment
experiment
experiment (v)
experiment constraint
experiment design
experiment model

experiment planning
experiment running
experiment-aimed
experiment-aimed simulation
experimental
experimental code
experimental concept
experimental condition
experimental context
experimental data
experimental design
experimental design methodology
experimental design methodology
experimental error
experimental frame
experimental frame base
experimental frame derivability
experimental frame composability
experimental frame realization
experimental knowledge
experimental method
experimental model
experimental observation
experimental procedure
experimental result
experimental validity
experimental variable
experimentalism
experimentalist
experimentalize (v)
experimentally
experimentarian
experimentation
experimentation bias
experimentation credibility
experimentation error
experimentation investigation
experimentation manager
experimentation perspective
experimentation specification
experimentation support

experimentation variable
experimentative
experimentator
experiment-based
experimented
experimenter
experimenter bias
experimenting
experimentist
experiments
gedankenexperiment
goal directed experiment
in silico experiment
in vitro experiment
in vivo experiment
knowledge-based experimentation support
large scale experiment
model-based experiment
multiple experimental frame
non-deterministic experiment
norms of experimentation
numerical experiment
parameterized experimental frame
parametric experimental frame
participatory experiment
physical experiment
plausible experiment
policy experimentation
purposeful experiment
real system experimentation
realization of experimental frame
separation of model and experimental frame
simulation experiment
specification of experimental condition
statistical design of simulation experiments
statistical experiment
thought experiment
virtual experiment
