

Post-doctoral position available. The successful applicant will work with a group of University of Ottawa professors under the auspices of the SOCIP Consortium <http://soscip.org/>. The successful applicants will be employed by IBM Canada, but the OPDF will work on uOttawa campus.

We are looking for people satisfying the following conditions:

- Ph.D. in Computer Science (in hand, or the thesis has been submitted) or a related discipline
- Background in Computer Security or Databases; familiarity with Cloud Computing
- Good software development skills
- Excellent oral and written communication skills in English, incl. track record in publishing scientific papers.
- Keen interest in pushing forward research frontiers
- [Canadian citizenship or Permanent Resident status in Canada] OR [recent graduate of a Canadian graduate program with at least two years of residency in Canada]. In the latter case some additional constraints may apply.

The position is for up to 24 months, to be filled as soon as possible.

Interested and qualified applicants should contact Dr. Stan Matwin, stan@eecs.uottawa.ca with their current professional CV.
