Top practices that lead to student success

1. How we use our time shows what we value (cell phones, Internet, etc.);

2. It’s not easy, but you can be successful if you chose;

3. If you get behind, you will likely never catch up;

4. If you are repeating the course and do the same things you did before, do not be surprised if you have the same results;

5. Study the material thoroughly before every class;
6. You must study all the assigned material;

7. Teamwork happens (study groups);

8. Open your mind to new ideas;

9. Class attendance does not guarantee academic success;

10. I can’t learn you the material.
