

### **Professor Abbas Yongaçoglu**

Abbas Yongacoglu received the B.Sc. degree from Bogaziçi University, Turkey, in 1973, the M.Eng. degree from the University of Toronto in 1975, and the Ph.D. degree from the University of Ottawa in 1987, all in electrical engineering.

He worked as a researcher and a system engineer at TUBITAK Marmara Research Institute in Turkey, Philips Research Labs in Holland and Miller Communications Systems in Ottawa. In 1987 he joined the University of Ottawa as an assistant professor. He became an associate professor in 1992, and a full professor in 1996. He spent sabbatical terms at Bogaziçi University, Istanbul, Turkey, École Nationale Supérieure des Télécommunications, Paris, France, Centre Nationale des Études de Télécommunications (CNET), Paris, France, National Institute of Information and Communications Technology, Yokosuka, Japan and Tohoku University, Sendai, Japan.

His area of research is wireless communications with emphasis on cognitive radio enabling techniques, geo-location determination and 5G wireless networks. He collaborates closely with the local industry and research institutions. He has been active in organizing several workshops and international conferences on communications. He is a professional engineer in the province of Ontario and a senior member of IEEE.
