

Ruby on Rails with Instant Rails

Name:

Student Number:

Task A – Shopping List Application

Build a shopping list application as described in the lab presentation.

Task B – Questions

Answer the following questions about commands you have used to build the shopping list application.

Question	Answer
Which folders are created by rails -d mysql test4110 in the test4110 folder?	
Which folders are created by the above command in the test4110\app folder?	
What does -d mysql in the above command do?	
Which files are created by rails generate scaffold MyConcept?	
How is config\route.rb changed by the above command?	
What does rake db:migrate do?	

Submission of your solution

Hand in this handout with your solution to Task B before the end of the lab. Do not forget to fill in your name and student number.

Archive your shopping list application from Task A (i.e., folder <RailsPath>\rails_apps\shoppinglist) at three different stages as detailed in the lab presentation in zip files called LabRoR<YourFirstName><YourLastName><Number>.zip. Submit your zip files to Virtual Campus at <https://maestro.uottawa.ca/index.asp?LANG=EN>. The deadline for submission of your zip file to Virtual Campus is 13:00 on November 21, 2011.
